SEEKING VOLUNTEERS AGED 60+ TO TEST A SYSTEM TO MONITOR YOUR HEALTH FROM HOME

We are looking for older adult volunteers to take their vitals (temperature, blood pressure etc.) every day for 3 weeks, in the comfort of their home. The vitals will be sent over the internet to a personal electronic health record. We are testing the usability of this system.

Interested participants must be able to stand without a walking aid for 2 minutes, have internet connection and a TV.

For more information please contact:

Dr. Bruce Wallace
